PRODUCT DESCRIPTION

Purpose & Benefits of A&D HVL-CS Chair Scale

The A&D HVL-CS Chair Scale is designed to provide accurate and convenient weight measurements for individuals who may have difficulty standing on traditional scales. This chair scale is ideal for use in healthcare settings, such as hospitals, clinics, and nursing homes, where accurate weight monitoring is essential for patient care.

Features

- **Built-in Chair Design:** Integrates a comfortable chair with a weighing scale, allowing individuals to sit while being weighed, which is especially beneficial for those with mobility issues, balance problems, or who are unable to stand.
- **Accurate Weight Measurement:** Equipped with high-precision sensors to provide accurate and reliable weight readings, ensuring consistent monitoring of patient weight.
- **Easy-to-Read Display:** Features a large, backlit LCD that shows clear and easy-to-read weight measurements, even in low-light conditions.
- **Tare Function:** Includes a tare function that allows for the deduction of additional weight, such as clothing or accessories, to ensure accurate net weight readings.
- **BMI Calculation:** Some models offer Body Mass Index (BMI) calculation, providing additional health metrics for comprehensive patient assessment.
- **Armrests and Footrests:** Designed with comfortable armrests and footrests to enhance patient comfort and stability during weighing.
- **Mobility and Portability:** Equipped with wheels and a handle, making it easy to move the scale from room to room or position it conveniently within the facility.
- **Durable Construction:** Built with robust materials to withstand frequent use in busy healthcare environments, ensuring long-term reliability and performance.

- **User-Friendly Interface:** Simple controls and an intuitive interface make it easy for healthcare professionals to operate the scale efficiently.

Specifications

- **Safe Working Limit:** 220 kg
- **Dimensions:** 750 (w) x 630 (d) x 880 (h)
- **Power Source:** AC or Battery (600 Hours)

The A&D HVL-CS Chair Scale is an essential tool for healthcare professionals, providing a reliable and convenient method for weighing patients who may have difficulty using traditional scales. Its combination of comfort, accuracy, and ease of use makes it a valuable addition to any healthcare facility, ensuring efficient and effective patient care.
