

# AIRCOMFORT DELUXE BED MAXI - ELECTRIC - INCLUDING POWER DRIVE

**SKU:** AC59115PD

## PRODUCT DESCRIPTION

### Purpose & Benefits

The Air Comfort V2 Maxi Power Drive Kit is a retrofit system designed to attach seamlessly to the Air Comfort V2 Maxi Chair. It provides powered drive assistance to healthcare staff, making patient transportation safer and more efficient.

By reducing the manual handling required, the Power Drive Kit lowers injury risk for caregivers while ensuring smooth, comfortable mobility for patients in aged care, hospital, and palliative care settings.

When gentle force is applied to the intuitive force-sensing handles, the drive unit responds proportionally delivering the right amount of propulsion with minimal effort. And when not in use, the drive mechanism retracts, allowing the chair to be pushed manually without resistance.

### Air Comfort V2 Maxi Power Drive Kit

### Specifications

- **Drive Direction:** Forwards & backwards
- **Max Assist Speed:** Up to 6 km/h
- **Max Advised Ramp Angle:** 6°Wheel Lift Speed: 4 seconds up/down
- **Product Weight (excl. charger):** 18 kg
- **Force of Wheel on Floor:** 40 kg
- **Battery Voltage / Capacity:** 24V DC / 9Ah NiMH
- **Battery Lifetime:** 500 cycles or ~2 years
- **Average Running Distance:** ~9 km on full charge (varies by load, slope & use)
