

ARJO SARA PLUS - SIT TO STAND AID

SKU: HEP0001-AU-H

PRODUCT DESCRIPTION

PURPOSE AND BENEFITS OF THE ARJO SARA PLUS

The Arjo Sara Plus is an ergonomic standing and raising aid that mobilises patients during everyday activities. The Sara Plus can be operated by a single caregiver for transfers and patient training. Equipped with a comprehensive range of safety features, this device drastically reduces the risk of injuries associated with manual patient handling, ensuring a safer and more dignified experience for both the patient and caregiver.

Additionally, the Arjo Sara Plus offers advanced features and customizable options to accommodate the unique needs of each patient. Its intuitive control panel allows caregivers to adjust the lifting speed, height, and support levels, ensuring optimal comfort and stability during transfers. The device is designed with patient dignity in mind, providing a smooth and gentle lifting motion that minimizes discomfort and maintains a natural posture. With its versatility and user-friendly design, the Arjo Sara Plus promotes independence and enhances the overall quality of care for individuals with limited mobility.

FEATURES

- The Arc-Rest provides upper body support during the raising action
- Designed to offer balance, stepping and walking training
- The first-step system, incorporating the Proactive Pad™ and a detachable footplate, enables a range of training exercises directly on the floor
- Dual controls on the mast and the hand control. The hand control enables the caregiver to move and stay close to the patient and maintain good eye contact throughout the process.
- A detachable footplate enables stepping and gait training with the patient's feet directly on the floor.

- Comes with 2 batteries and 1 charger
- Optional integrated scale contributes to an easier weighing routine
