

BED PAN - PLASTIC

\$41.00

SKU: BTT151800

PRODUCT DESCRIPTION

PURPOSE AND BENEFITS

The Bed Pan is a must have for individuals or carers to assist in the process of going to the toilet. It is perfect for people who are confined to a bed; or in a wheelchair and are unable to be assisted to use the toilet. This conventional bedpan also features a contoured shape to provide added comfort. Being made of hard plastic, makes this toilet aid very easy to keep clean. Simply use hot soapy water and leave it to drain.

KEY FEATURES

- Assists toileting of user whilst confined to bed, also may be used as a shower commode pan
- Wide seating area and front cut out to allow for correct positioning
- Made of a moulded plastic autoclavable construction
- Fits most [shower commodes](#)

What is a bed pan?

The bed pan is a container that can be used to collect and dispose of bodily fluids, such as urine or stool. Originally it was made out of metal but nowadays many are plastic containers with handles on the side for easy carrying and disposal.
