

ASPIRE ONE WAY SLIDE

\$129.00

SKU: TSE673052

PRODUCT DESCRIPTION

Purpose & Benefits of Aspire One Way Slide

The Aspire One Way Slide is designed to assist caregivers in repositioning individuals in their seats easily and safely, minimising the risk of injury for both the caregiver and the person being assisted. This tool is ideal for use in clinical and home settings, facilitating smooth movement while maintaining comfort for the user.

Features

- **Directional Lock:** Prevents the individual from sliding forward, ensuring safety and stability in the seated position.
- **Versatile Use:** Compatible with most chair types, making it a flexible aid for various seating arrangements.
- **Durable Material:** Crafted from robust fabric that withstands the demands of frequent use, ensuring long-lasting performance.
- **Ease of Use:** Designed for simple operation, allowing caregivers to adjust seating positions with minimal effort.
- **Comfort Assurance:** Provides a soft, non-slip surface that enhances user comfort while seated.

Specifications

Code	Display Name	Total Length	Total Width
TSE673052	One Way Slide - Non Slip - Foot Operated	1300 mm	450 mm

The Aspire One Way Slide is a practical solution for improving patient care by enabling easier adjustments to seating positions, thereby enhancing comfort and reducing the risk of strains or injuries associated with manual repositioning tasks.
