

BACK EXTENSION BRACKETS - ACCESSORY FOR REVOLUTION SWIVEL CHAIR

SKU: N/A

PRODUCT DESCRIPTION

Purpose & Benefits

The **Revolution Back Extension Brackets** are designed to add extra back support or extension capability to your Revolution swivel chair, improving comfort for users who need more lumbar or upper back coverage. They help maintain correct posture, reduce back strain, and enhance stability during seated tasks or transfers—particularly for taller or larger users, or those who require additional spinal support.

Features

- Adds lumbar/upper back extension for improved support
- Compatible with Revolution swivel chair range (standard, height-adjustable, bariatric)
- Robust bracket construction to hold securely in place when the chair moves or swivels
- Easy to install by replacing or extending the chair's backrest attachment points
- Adjustable positioning (height or angle) for personalised comfort

Specifications

- **Compatible Models:** REVO-HT, REVO-STD, REVO-BA
