PRODUCT DESCRIPTION

PURPOSE & BENEFITS

This contoured back support chair cushion provides postural support and helps alleviate lower back fatigue whilst seated.

Utilising a unique built-in spinal support column for natural spine alignment, the Back Huggar is designed to help improve posture and relieve back pain. The seat cushion features an insert which can be removed to reduce the depth of the cushion or to modify the lumbar curve on the cushion.

FEATURES

- Provides soothing support for back muscles and spinal discs
- Cradles the spine and follows its natural curve
- Can be used either way up, providing options for differing physiques
- Light and durable and guaranteed to hold its shape
- Zipped corduroy cover can be easily removed for cleaning
- Two densities - Traditional Foam & Memory Foam
- Stretch-elastic ties to allow for fixing to chairs and seats where desired
- Designed specifically for people with spinal pain, spine conditions and disability
- Assists in the relief of back pain
- Promotes better posture and correct spinal alignment
- Reduce stress

OPTIONS

Choose from traditional or memory foam

Back Hugger is an adjustable and economical lower back support available in two versions:

- Deluxe traditional foam is for those who prefer substantial support
- Memory foam version is for those needing softer (more subtle) lumbar support

Utilising a unique built-in spinal support column for natural spine alignment, the Back Hugger back support cushion is designed to help improve posture and relieve back pain. The seat cushion features an insert that can be removed to reduce the depth of the cushion or to modify the lumbar curve on the cushion.

Available in two cover options - Dura-Fab & Steri-Plus

Most products in the Theramed range offer cover options of the soft and durable fabric Dura-Fab, or the moisture and bacteria-resistant Steri-Plus, and some select products are available in cotton quilting.

Dura-Fab is a stylish woven & washable polyester, while Steri-Plus has a special polyurethane ply (film) bonded to woven polyester fabric.
