PRODUCT DESCRIPTION

PURPOSE & BENEFITS

The Bed Maker and Mattress Lifter is a revolutionary product designed to make your bed-making experience easier and more efficient. This ergonomic mattress wedge elevator is a game-changer for anyone who struggles with lifting heavy mattresses or finds it difficult to tuck in sheets and blankets. With its innovative design and practical features, the Bed Maker and Mattress Lifter is a must-have for every household.

FEATURES

- Effortlessly lift your mattress and allows for easier manoeuvring around nightstands, headboards and side walls. Can quickly tuck in sheets.
- The Bed Maker has an ergonomic design that allows you to grip it at a choice of positions and eliminates repeated lifting and strain that occurs. This Bed Maker slides between the mattress and box springs to lift your mattress making easy access to tuck sheets in.
- With the Bed Maker and Mattress Lifter, changing your bed sheets becomes a breeze. It lifts the mattress, providing ample space for you to tuck in sheets, adjust bed skirts, or arrange blankets without any hassle.
- OSHA recommends the Mattress Lifter to reduce fatigue and injury, lost workdays, potential OSHA fines, and workers' compensation claims.
- High-Quality Mattress Lifter: Quality ABS materials made, which is built to last. It can withstand the weight of your mattress without compromising its stability or durability.
- This Mattress Lifter is compatible with various mattress sizes, including single, twin, queen, and king. No matter the size of your bed, you can enjoy the benefits of effortless bed-making.
- Easy to Use: Lightweight and easy to use. Save your efforts and save you from getting hurt.
