

## BELLAVITA BATH LIFT

**\$1,011.00**

**SKU: S11499**

## PRODUCT DESCRIPTION

### PURPOSE AND BENEFITS

Enjoy a bath with confidence using the lightest battery powered bath lift available – the Bellavita bath lift. At the touch of a button using the hand control of this ergonomically-designed bath lift, users with restricted mobility are gently lowered down into the bath. The bath lift also lifts the user to the top again for safely getting out.

**Innovative and effective:** Made in Germany, this ultra-modern bath lift takes the clinical look out and is more in keeping with today's requirements. Developed with the help of Nursing Professionals, it includes several excellent new features.

**Lightweight yet strong:** Lightest battery-powered reclining bathlift with a unique front aperture for improved personal hygiene.

**Record defining:** Ergonomically designed for you to enjoy a great soak in the bath with a record seat height of 48cm, very low seat travel of 6cm and a backrest that reclines to a market leading 50 degrees.

### KEY FEATURES

- The backrest reclines to a market-leading 50 degrees to accommodate customers requiring a greater hip-to-back sitting position, such as those with stiff hips.
- The cutout in the seat's front facilitates personal hygiene.
- Can be used with or without covers;

washable hygienic covers are simply fitted/removed and offer additional bathing comfort (available in white or blue)

- Extremely low seat travel of 6cm (2.4") from the bottom of the bath enhances water immersion and is perfect for shallow baths.
- Record seat height of 48cm (18.9") allows for safe level transfers in deeper baths • Weighs only 9.3kg (20.5lb) to make transporting and handling easier.
- Quickly and simply separates into two lightweight halves for simple installation/removal, storage, and travel.
- Contoured, slim-line profile facilitates handling and provides a contemporary, aesthetically pleasant appearance that complements most bathrooms.
- Four quick-release suction feet permit combat-free removal from bath.
- Lightweight, completely waterproof, floatable hand control with easy-to-use buttons.
- The handheld remote's lithium-battery technology allows for convenient recharging in numerous locations.
- An indicator light illuminates when charging is necessary, and a safety mechanism stops the bath lift from lowering without sufficient energy to return it to the top of the bath.
- The emergency stop button built into the handle ensures maximum safety.
- User-friendly jack plug connection to charger for simplicity of usage.
- Produced from high-quality, lightweight plastic that is recyclable and simple to clean.
- Weight limit of 140 kg.
