PRODUCT DESCRIPTION

PURPOSE & BENEFITS

The **Bellman Audio Maxi Pro with TV Streamer** delivers clear, amplified sound from your television directly to your personal amplifier. Designed for users who want to enjoy TV audio without disturbing others, it transmits sound in full HD stereo using advanced Bluetooth technology. Whether you prefer headphones, earphones, or a neckloop for hearing aids, each option offers high-quality, low-latency audio streaming and an easy, wireless experience.

FEATURES

- Streams TV audio in full HD stereo directly to your Bellman Maxi Pro personal amplifier (included in bundle)
- Uses Qualcomm® aptX™ low latency technology for perfect sound-to-image synchronisation with no lip-sync issues
- Separate TV volume control – listen at your preferred volume without affecting others in the room
- Supports both analogue and digital audio inputs to suit modern television models
- Wireless Bluetooth connection for freedom of movement while watching TV

- Compatible with multiple listening accessories for personal comfort and hearing needs
