SKU: BE2032-H

PRODUCT DESCRIPTION

PURPOSE & BENEFITS

The **Bellman Audio Mino Digital Listener** is a compact, high-performance speech amplifier designed to enhance sound clarity in everyday situations. Suitable for people with or without hearing aids, it uses advanced digital signal processing to deliver clear, natural speech and reduce background noise. Lightweight and intuitive to operate, the Mino provides excellent listening support at home, work, or in public venues equipped with hearing loop systems.

FEATURES

- Digital signal processing for clear, feedback-free stereo sound
- Dual microphone modes – omni and unidirectional (zoom) for targeted listening
- Compact, pocket-sized design weighing only 74 g for discreet use
- Simple button operation with no complex menus
- Rechargeable lithium-ion battery provides long-lasting performance
- Built-in telecoil for use in venues with hearing loop systems such as theatres and churches
- Compatible with a range of Bellman accessories for custom hearing setups
