PRODUCT DESCRIPTION

PURPOSE & BENEFITS

The **Bellman Maxi Pro Communication Kit** is a complete portable hearing assistance solution designed for clear one-to-one or small group communication. Perfect for GP clinics, hospitals, councils, and customer service environments, it helps bridge communication gaps for individuals with hearing loss — particularly those who do not wear hearing aids or have difficulty managing them.

FEATURES

- Provides clear amplified sound for one-to-one or small group conversations
- Ideal for use at reception counters, consultations, and meeting rooms
- Simple operation with tactile buttons and clear audio output
- Includes a durable travel case for safe storage and portability
- Compatible with the Bellman Maxi Pro personal amplifier and accessories
- Rechargeable battery with USB charging lead and wall charger included

SPECIFICATIONS

- **Application:** One-to-one or small group communication (up to 3-4 people)
- **Included Items:** Maxi Pro amplifier, headphones, USB charging lead, wall charger, user guide, hard travel case
- **Power:** Rechargeable lithium-ion battery
- **Portability:** Supplied in a hard protective case for transport and storage
- **Compatibility:** Works with Bellman Maxi Pro system and accessories
