BELLMAN VISIT ALARM CLOCK RECEIVER

SKU: BE1380

PRODUCT DESCRIPTION

PURPOSE & BENEFITS

The **Bellman Push Button & Visit Alarm Clock** provides an effective alert solution for home or care environments. Acting as both a wireless doorbell and a portable call button, it transmits a signal to your Bellman Visit receiver to alert you through sound, light, or vibration. Ideal for users with hearing loss or those requiring caregiver assistance, it ensures reliable notifications throughout the home.

FEATURES

- Can be used as a wireless doorbell or portable alarm to call for help
- Sends alerts to Bellman Visit receivers using flashes, sound, or vibration
- Customisable alert signals for different doors or locations
- Adjustable radio key enables multiple systems to operate in the same area without interference
- Reliable long-range radio transmission for consistent operation
- Battery life of up to 2 years on a standard battery

SPECIFICATIONS

- **Function:** Wireless transmitter for the Bellman Visit alerting system
- **Operation:** Push button activation for doorbell or personal alarm use
- **Transmission Range:** Varies by environment; may be reduced by brick, concrete, or steel walls
- **Compatibility:** Works with all Bellman Visit receivers
- **Power Supply:** Standard battery (up to 2-year lifespan)

Note: The effective range of the transmitter may vary depending on building materials such as brick, concrete, or steel.
