BELLMAN VISIT PUSH BUTTON TRANSMITTER

SKU: BE1240

PRODUCT DESCRIPTION

PURPOSE & BENEFITS

The **Bellman Visit Push Button Transmitter** functions as a versatile wireless doorbell or portable personal alarm. When pressed, it sends a signal to your Bellman Visit receivers, alerting you through flashes, sounds, or vibrations. Ideal for use in home or care environments, it ensures you never miss a visitor or call for assistance. Its reliable radio link provides dependable performance across your home, supporting independent living and peace of mind.

FEATURES

- Functions as a wireless doorbell or portable call button
- Sends alerts to Visit receivers via flashes, sound, or vibration
- Customisable signal options for different doors or alert points
- Adjustable radio key allows multiple systems to operate in one area
- Highly reliable radio link ensures consistent transmission
- Battery life of up to 2 years on a standard battery

SPECIFICATIONS

- **Function:** Wireless transmitter for the Bellman Visit alerting system
- **Operation:** Push button activation
- **Transmission Range:** Dependent on environment (may be reduced by brick, concrete, or steel walls)
- **Compatibility:** Works with all Bellman Visit receivers
- **Power Supply:** Standard replaceable battery (up to 2-year lifespan)
