

**BETTERLIVING SIDE RAIL, THREE QUARTER LENGTH, PAIR - SUITS COMMUNITY BED**

**\$499.00**

**SKU: BE6003**

## **PRODUCT DESCRIPTION**

### **Purpose & Benefits**

The BetterLiving Community Bed Side Rail is designed to enhance patient safety and provide peace of mind for carers in aged care and clinical environments. Supplied as a pair of three-quarter length rails, these sturdy, high-quality side rails are suitable for use with BetterLiving Community Beds and similar adjustable bed frames.

They provide secure support to help reduce fall risk during rest or sleep, while still allowing patients room to get in and out of bed independently or with assistance. Their clean white powder-coated finish and discreet profile ensure they blend seamlessly into both home and facility settings.

### **Features**

- Three-quarter length design enhances safety without restricting mobility
- Designed specifically for compatibility with BetterLiving Community Beds
- Durable steel construction with white powder-coated finish
- Secure mounting brackets for reliable installation
- Supplied as a pair

- Assists in fall prevention and safe patient repositioning
