\$270.00

SKU: BE9002

PRODUCT DESCRIPTION

Features and Benefits

The BetterLiving Grab Bar is a supportive accessory designed to assist users of the BetterLiving Community Bed with safe repositioning and increased independence. Whether sitting up, adjusting position, or transitioning in and out of bed, this grab bar offers essential stability and support. It's ideal for aged care or home care environments, helping to minimise caregiver strain while enhancing user confidence.

Mounts securely to the bed frame with a robust steel build, and is simple to install and remove when required.

- Compatible with BetterLiving Community Bed
- Offers firm handhold for patient mobility and repositioning
- Ideal for home care, hospitals, and aged care settings
- Robust powder-coated steel construction
- Simple installation and removal without tools
