PURPOSE & BENEFITS

Introducing the BetterLiving Toilet Bowl Night Light - Illuminate your nighttime restroom visits with the BetterLiving Toilet Bowl Night Light, a state-of-the-art night light uniquely designed for your toilet. Not only does it provide visibility in the dark, but it also offers added safety, minimizing the potential for mishaps and falls.

This Night Light reduces the chance of falls, spills and accidents and improves safety in low-light situations. It is great for people living with a diagnosis of dementia or cognitive difficulties as well as people with poor eyesight.

FEATURES

- **Safety First:** No more stumbling in the dark. With light and motion sensors, this night light illuminates your way, significantly decreasing the likelihood of accidents in low-light scenarios.
- **Versatile Color Options:** Choose from eight vibrant colours to set the perfect ambience. Alternatively, let the auto sequence mode delight you by cycling through each colour for an ever-changing display.
- **Specially Designed:** Beyond just a visual aid, the contrasting colours assist those diagnosed with dementia or cognitive impairments, as well as individuals with compromised vision.
- **Energy Efficient:** Activated by motion and darkness, the night light conserves the battery, ensuring longevity and minimal maintenance.
- **Sleek and Subtle:** Its elegant design seamlessly blends with your bathroom décor, adding a touch of modern aesthetics without being obtrusive.
- **Long-lasting:** Crafted with durable LED technology, it's built to last. Please note, it requires 3 x AAA batteries (not included).

Upgrade your nighttime bathroom experience with the BetterLiving® Toilet Bowl Night Light – because safety, functionality, and aesthetics should go hand in hand.
