

BROLLY SHEETS WITH WINGS

SKU: BSP-H

PRODUCT DESCRIPTION

PURPOSE & BENEFITS

Brolly Sheets with Wings are innovative and practical bedding protectors designed to provide a comfortable and discreet solution for managing incontinence or bedwetting. These sheets are ideal for individuals of all ages, from young children to the elderly, offering protection and peace of mind during the night.

FEATURES

- **High Absorbency:** The central layer of the Brolly Sheet is highly absorbent, effectively capturing and containing fluids, which helps to protect the mattress from moisture and stains.
- **Wings for Secure Placement:** The unique feature of these sheets is the addition of 'wings' — flaps that tuck under the mattress. These wings help to hold the sheet in place, preventing it from moving or bunching up during sleep.
- **Soft and Comfortable Top Layer:** The top layer of the sheet is made from a soft and skin-friendly fabric, ensuring comfort throughout the night and minimizing any noise typically associated with waterproof bedding.
- **Waterproof Backing:** The bottom layer is waterproof, providing an additional barrier to protect the mattress from liquids.
- **Easy to Change:** Designed for convenience, Brolly Sheets can be quickly changed at night without replacing the entire bedding, making them particularly useful for caregivers and parents.
- **Machine Washable and Dryer Safe:** The sheets are durable and can be laundered in the washing machine and tumble-dried, ensuring easy maintenance and hygiene.

Brolly Sheets with Wings offer a practical, comfortable, and reliable solution for managing

incontinence and bedwetting, helping to ensure a restful sleep while protecting the mattress. Their ease of use, durability, and discreet design make them a popular choice for individuals and caregivers alike.
