

CARE STATION - INFANT CRADLE WHEELCHAIR ATTACHMENT

\$5,974.00

SKU: INFANT CAPSULE

PRODUCT DESCRIPTION

Purpose & Benefits of the Care Station - Wheelchair Infant Capsule

The Care Station is the world's first infant care capsule, specifically designed to assist parents with disabilities in interacting with their child. This innovative system integrates seamlessly into daily routines, ensuring that parents can provide the best care for their infant while maintaining their independence and confidence. By keeping the infant close, connected, and comfortable, the Care Station revolutionises the future of child-rearing for parents with disabilities.

Features

- **360-Degree Rotation:** Allows the capsule to rotate fully, providing flexibility in positioning the infant for various activities.
- **Multi-Angle Tilt Positions:** Enables the capsule to tilt into multiple angled positions, facilitating feeding, hygiene, and other caregiving tasks.
- **Adjustable Tray:** The integrated tray can be adjusted to suit any task requiring close interaction between the parent and child.
- **Wheelchair Compatibility:** Can be securely attached to both manual and power wheelchairs, allowing parents to remain mobile and comfortable while caring for their child.

Specifications

- **Compatibility:** Fits most manual and power wheelchairs.
- **Rotation:** 360-degree swivel capability.
- **Tilt Function:** Multiple angle adjustments for various caregiving activities.
