

CAREWINDOW VIDEOPHONE UNIT

SKU: CareWindow Unit

PRODUCT DESCRIPTION

PURPOSE & BENEFITS

CareWindow provides an easy-to-use live video connection, bringing families closer together, no matter the distance.

A modern solution to a modern problem

We understand the harsh impact of the COVID-19 pandemic on our ability to visit our loved ones in aged care. Not everyone is able to utilise video calling services on mobile phones, especially those with dementia or who struggle with mobility and motor skills. **CareWindow** provides a simple and intuitive solution for friends and family to stay connected with their loved ones at the simple touch of a button.

You can connect the CareWindow via WiFi, Ethernet or 4G. *Please note for 4G a data SIM for the product will need to be purchased separately (as we're still selecting a preferred cell data provider), and we provide clear instructions on how to do this for all customers.*

FEATURES

- Automatic Answering & Zero-Touch Operation
- One touch calling
- User-friendly video chatting at the touch of a button
- Wi-Fi and built-in 4G connection right out of the box

- No log-in process required
- Small, light, convenient design
- Crisp speakers and microphone
- Affordable by design
