

COMPRESSION WRIST SLEEVE

\$39.00

SKU: OSWS6BK

PRODUCT DESCRIPTION

GET YOUR SWING BACK!

Your wrist is a major component of your hand-eye coordination. Improving your blood flow and preventing swelling will keep you on your A-Game. Our Performance Wrist Sleeve fits under any apparel or gear. Don't let bulky splints and compression systems keep you from playing at your best.

Compression Zone Technology

The OS1st WS6 Performance Wrist Sleeve uses [Compression Zone Technology](#). The WS6 provides medical grade support and graduated compression to your wrist. The WS6 eases the pain resulting from carpal tunnel syndrome and general sports activities.

Support and Stabilisation

The WS6 wrist sleeve has specific built-in K-Zone Technology to provide maximum stability. The WS6 stays in position while providing extra support & stabilization where needed most. This patented device is the only graduated sports wrist compression sleeve available today. Graduated compression reduces swelling and fatigue along with the associated pain.

6 Zones of Graduated Compression

The WS6 Performance Wrist Sleeve has six zones of graduated compression. The WS6 Performance Wrist Sleeve provides effective pain relief. It provides support and is comfortable enough to wear any time, day or night. It's thin enough for you to wear under your clothing. The WS6 works with your body's natural angles, unlike bulky straps and splints. The WS6 is available in black and natural and is hypo-allergenic. The WS6 Performance Wrist Sleeve is a perfect fit for your active lifestyle
