PRODUCT DESCRIPTION

Purpose & Benefits of the Configura Advance CushionAir Kit

The Configura Advance CushionAir Kit is designed to provide advanced pressure relief and seating comfort for individuals with mobility issues or those at risk of pressure sores. Its innovative air-cell technology allows for continuous pressure redistribution, making it ideal for long-term use in healthcare facilities or home care. This kit ensures that users maintain comfort while seated, offering customisable support that adapts to each individual's needs.

Key Features

- **Enhanced Pressure Relief:** The air-cell design helps to evenly distribute weight and reduce pressure points, minimising the risk of pressure injuries.
- **Customisable Comfort:** Users can adjust the cushion's firmness to suit their preferences, providing tailored support for a variety of seating needs.
- **Durable and Resilient:** Constructed with high-quality materials, the cushion is designed to withstand regular use while maintaining its effectiveness in pressure redistribution.
- **Integrated Pump for Easy Adjustment:** The kit includes a manual pump for easy inflation and pressure control, allowing the user to achieve the desired support level quickly.
- **Easy Maintenance:** Comes with a waterproof, machine-washable cover, ensuring the cushion remains hygienic and easy to clean, even with extended use.

Specifications

- **Weight Capacity:** Designed for users up to 150 kg
- **Material:** High-quality air cells with a breathable, waterproof cover
- **Included:** Cushion, manual pump, and user guide

- **Cleaning:** Machine washable cover for easy cleaning and maintenance
