

CONNI STOOL OPTIMAL POSITIONING TOILET STEP

SKU: SS-045021-1WH

PRODUCT DESCRIPTION

Purpose & Benefits

The **Conni Stool Optimal Positioning Toilet Step** is designed to support a more natural and comfortable toileting position by gently elevating the feet while seated on the toilet. Raising the knees above hip level encourages a squat-like posture that may help reduce straining and support bowel movements. It can be particularly helpful for adults experiencing constipation, pelvic floor sensitivity or reduced mobility. Designed for everyday bathroom use, the stool features a stable construction and rubber non-slip foot grips for added stability. Its shape fits around most standard toilets, while the easy-to-clean surface supports convenient maintenance between uses.

Features

- Encourages a natural, squat-like posture while seated on the toilet.
- May help reduce straining during bowel movements.
- Supports pelvic floor relaxation and toileting comfort.
- May assist with more complete and efficient bowel emptying.
- Strong, durable construction for everyday use.
- Rubber non-slip foot grips for added stability.

- Designed to fit around most standard toilets.
- Easy to clean and maintain between uses.
