## KCARE DIGITAL LED CALENDAR DAY CLOCK

SKU: DDC-1001-H

PRODUCT DESCRIPTION

PURPOSE & BENEFITS

The KCare Digital LED Calendar Day Clock is a thoughtfully designed time management tool, catering to individuals with cognitive impairments, such as those with dementia or Alzheimer's, as well as for the visually impaired. This clock stands out with its clear, large display that not only presents the time but also keeps the users informed of the day and date, helping them to maintain their daily routine without confusion.

FEATURES

- **High-Visibility Display:** The LED screen boasts large, bold letters and numbers against a high-contrast background, ensuring it can be easily read from a distance, even in low-light conditions.
- **Comprehensive Time and Date Information:** Displays the full day of the week, date, and time in a non-abbreviated format, reducing confusion for individuals with memory loss and helping them stay oriented in time.
- **Customisable Alarms:** This comes with the functionality to set multiple alarms, which is invaluable for users who need reminders for medication, meals, or other important daily events.
- **Auto-Dimming Feature:** The screen brightness automatically adjusts to ambient light, dimming in the evening to prevent sleep disturbances and brightening during the day for better visibility.
- **Versatile Placement Options:** Designed for convenience, it can be placed on a tabletop using a built-in stand or mounted on a wall, fitting into a variety of living spaces and personal preferences.
- **Language and Format Flexibility:** Allows users to select from multiple languages and choose between a 12-hour or 24-hour time display format, accommodating diverse needs and

preferences.

The KCare Digital LED Calendar Day Clock is an essential device for those who benefit from cognitive aids, offering a gentle yet clear reminder of the time and date, thus fostering independence and confidence in daily life.
