

DIGIWRAP TOO TOE SPLINT

\$18.00 - \$88.00

SKU: PA-10331-H

PRODUCT DESCRIPTION

Purpose & Benefits of the Digiwrap Too Toe Splint

The Digiwrap Too Toe Splint is designed to provide support and protection for injured or deformed toes, including those affected by fractures, sprains, or conditions such as hammertoes and overlapping toes. This toe splint helps to align and stabilize the affected toe, promoting proper healing and reducing discomfort. By maintaining the correct position of the toe, the Digiwrap Too helps prevent further injury and can aid in the correction of toe deformities, making it an essential tool for individuals experiencing toe-related issues.

Features

- **Supportive Alignment:** Ensures the toe is held in the correct position to facilitate healing and prevent further injury or deformity.
- **Soft, Flexible Material:** Made from a comfortable, soft material that conforms to the contours of the foot, providing customized support without restricting overall foot movement.
- **Adjustable Design:** Comes with adjustable straps or fasteners that allow for a snug fit, accommodating changes in swelling and ensuring continued effectiveness of the splint.
- **Breathable Fabric:** The material allows for adequate air circulation, reducing the risk of moisture buildup and maintaining comfort during extended wear.
- **Easy to Wear and Remove:** Designed for simplicity, the splint can be easily applied and removed, offering convenience for daily use.

Specifications

- **Material:** High-quality, soft fabric combined with sturdy yet flexible splinting material to ensure both comfort and effective support.
