PRODUCT DESCRIPTION

Purpose & Benefits of the Etac Alto Electronic Mobile Shower Commode with Pan Holder

The Etac Alto Electronic Mobile Shower Commode with Pan Holder is an advanced and versatile mobility aid designed for showering, toileting, and transportation needs in various care settings, including homes, hospitals, and long-term care facilities. This commode offers a range of features aimed at enhancing both user comfort and caregiver efficiency.

Key Features

- **Electronic Height and Tilt Adjustment**: The commode allows for precise adjustments in height and tilt, accommodating different user needs and ensuring optimal positioning for comfort and safety during use.
- **Ergonomic Design**: Designed with caregivers in mind, the Alto offers 360-degree access, allowing for easier assistance and reducing the risk of work-related injuries.
- **Compact and Manoeuvrable**: The Alto's small footprint and design enable it to fit through standard doorways and over most toilets, minimising the need for home modifications.
- **Accessory Compatibility**: The Alto is compatible with various accessories, such as a wipeable back support and adjustable headrest, allowing for customised comfort and support.
