

ETAC BEAUTY BACK WASHER

SKU: 80210080

PRODUCT DESCRIPTION

The ETAC Back Washer is designed to make it easy to reach and clean the body, especially the hard to reach back area. The washcloth does not absorb water, making the product light and balanced even when wet. The ergonomic handle is designed to facilitate a two-handed grip for people with limited strength or reach.

Replacement washcloths are available. Also, have a look at other bathing aids

WASH YOUR BACK WITH EASE

The question is are back scrubbers good for your skin? With the best back scrubbers such as this ETAC Back Washer, you can clean and massage your back, <u>exfoliate the skin</u>, and work in your favourite soap or body wash for a thorough wash. Conclusively, this can put a halt to itchiness, and also serve to contend acne.

Back pain is one of the most common reasons people seek medical attention.

The problem with back washers is they can be difficult to use and often require two hands to operate effectively. This makes it hard for those who have limited strength or reach to clean their own backsides independently.

Our ETAC Back Washer has a unique design that allows you to clean your own back without a struggle! This is the first product designed specifically for washing your own back in the shower or bathtub without having to lean over and reach awkwardly behind yourself. Our washcloth doesn't absorb water so that this product remains light and balanced even when wet, making it easy for anyone to use - even those who have limited strength or reach because they've been injured or are suffering from arthritis or other chronic conditions like fibromyalgia. Plus its ergonomic handle means

two-handed use isn't a problem.
