PRODUCT DESCRIPTION

Purpose & Benefits

The Etac Hi-Loo with Brackets is a stable, hygienic toilet seat raiser designed to improve comfort and safety for individuals with limited mobility or difficulty sitting and standing. With a discreet Scandinavian design, it fits securely onto most standard toilets using robust, adjustable side brackets for a tool-free, firm installation.

Available in multiple heights, the Hi-Loo helps reduce strain on the hips and knees during toilet transfers, making it ideal for elderly users or those recovering from surgery. The ergonomic seat shape, smooth surface, and removable design support both user comfort and easy cleaning.

Features

- Raises toilet height for safer, more comfortable use
- Secure bracket mounting – no tools required
- Ergonomic seat design with soft contours
- Removable for easy cleaning and flexibility
- Available in different heights to suit individual needs

- Durable, easy-to-clean plastic construction
- Suitable for most standard toilet bowls
- Ideal for home, hospital, and aged care use
