ETAC RELIEVE ANGLED TABLE KNIFE

SKU: 8040210-H

PRODUCT DESCRIPTION

PURPOSE AND BENEFITS

The Etac Relieve angled table knife assists individuals with limited hand strength in cutting tasks. These knives feature angled handles that make cutting easier for those with reduced hand strength.

You can choose from three variants of the Relieve table knives: one for normal-sized hands, one for small or children's hands, and a foldable model for added convenience. The angled handle design promotes a straight wrist and ensures a stable grip. The top of the handle is smoothly curved to provide a comfortable thumb position.

The blade of the knife is very sharp, facilitating easy cutting. To enhance safety and minimize the risk of hand-food contact, the blade is positioned lower than the handle.

The Etac Relieve angled table knife is a practical solution that enables individuals with limited hand strength to cut food more easily and independently.
