SKU: BIBTRAY-H

PRODUCT DESCRIPTION

PURPOSE & BENEFITS

The Brolly Sheets Extra Absorbent Bib is designed to offer superior protection and comfort for individuals who need extra care during meal times or throughout the day. This bib is particularly suitable for adults with special needs, the elderly, or anyone who requires additional protection against spills and stains. With its enhanced absorbency features, this bib stands out as a reliable solution, ensuring that users remain dry, comfortable, and dignified.

FEATURES

- **Exceptional Absorbency:** The bib is constructed with multiple layers of highly absorbent materials, capable of soaking up a significant amount of liquid quickly. This feature is especially beneficial for preventing spills from penetrating through to the wearer's clothes.
- **Waterproof Barrier:** A waterproof layer is integrated into the bib, serving as a reliable barrier against moisture. This ensures that spills are contained within the absorbent layers, keeping the wearer and their clothing dry.
- **Comfortable and Soft:** Despite its practical design, the bib maintains a high level of comfort. The front layer, which comes into contact with the skin, is made from a soft, gentle fabric, ensuring it can be worn comfortably for extended periods.
- **Adjustable Closure:** Equipped with an adjustable neck closure, such as Velcro or snap buttons, the bib can easily be fitted to the wearer, providing a secure and customized fit for individuals of various sizes.
- **Large Coverage Area:** The bib offers a generous coverage area, ensuring that spills are caught effectively, and a wide area of clothing is protected during meals or other activities.

- **Easy Care:** Designed for convenience, the bib is machine washable and dryer safe, allowing for easy cleaning and quick reuse. Its durable construction ensures it can withstand frequent laundering without losing absorbency.
- **Stylish Designs:** Available in a variety of colours and patterns, these bibs allow wearers to maintain their personal style and preference, moving away from the clinical appearance of traditional adult bibs.

The Brolly Sheets Extra Absorbent Bib is an essential item for caregivers and individuals looking for a reliable, comfortable, and dignified solution to manage spills and maintain cleanliness. Its enhanced absorbency and user-friendly design make it a preferred choice in care settings and homes alike.
