

HANDI-MOVE DAYLITE NYLON SLING

SKU: 3445S-H

PRODUCT DESCRIPTION

Purpose & Benefits of Handi-Move Daylite Nylon Sling

The Handi-Move Daylite Nylon Sling is designed to provide secure and comfortable support for individuals needing assistance with transfers and mobility. This sling is ideal for use with various hoisting systems, offering flexibility and reliability in both home and professional care settings. Its lightweight and durable construction ensures ease of use for caregivers while maximising comfort for the user.

Features

- **Lightweight Design:** Constructed from high-quality nylon material, the sling is lightweight yet strong, making it easy to handle and reducing strain on caregivers.
- **Comfortable Support:** Designed to distribute weight evenly, minimising pressure points and enhancing comfort during use.
- **Versatile Compatibility:** Can be used with a wide range of hoists and lifting systems, providing a versatile solution for different care environments.
- **Breathable Fabric:** The nylon fabric is breathable, helping to keep the user cool and comfortable during transfers.
- **Durable and Easy to Clean:** Made from durable materials that are easy to clean and maintain,

ensuring long-term use and hygiene.

- **Safety Features:** Includes reinforced stitching and secure attachment points to ensure user safety during lifting and transferring.

Specifications

- **Material:** High-quality, breathable nylon
- **Weight Capacity:** Suitable for a variety of users, with specific capacity details available from the manufacturer
- **Size Options:** Available in multiple sizes to fit different body types and needs
- **Compatibility:** Designed for use with most standard hoisting systems

Applications

- **Home Care:** Assists family members or professional caregivers in safely transferring individuals within the home.
- **Healthcare Facilities:** Ideal for use in hospitals, nursing homes, and rehabilitation centres for patient transfers.
- **Rehabilitation:** Supports physical therapy and rehabilitation exercises by providing secure and comfortable lifting.

The Handi-Move Daylite Nylon Sling is an essential tool for caregivers seeking to enhance the quality of care and ensure the safety and comfort of individuals during transfers.
