

HANDIMOVE LEG SUPPORT

SKU: 1074S

PRODUCT DESCRIPTION

Features and Benefits

HandiMove Thigh Supports are essential accessories for the SureHands® body support system. Designed to improve safety, comfort, and alignment during transfers, these supports help distribute body weight evenly while keeping the back straight and the body stable.

Available in multiple shapes and sizes, the thigh supports cater to a wide range of users — including those with muscular dystrophy or specific contouring needs. They are constructed from rust-resistant, maintenance-friendly materials and feature non-slip surfaces for added security. The patented thigh support design enhances comfort and balance during lifts.

Ideal for use in care facilities and home environments where safe, efficient transfers are needed.

Features

- Compatible with the SureHands® body support system
- Promotes balanced posture and spinal alignment
- Slipproof variants for enhanced safety
- Lightweight, rust-resistant construction
- Easy to maintain and clean
- Multiple variants for standard, contour, and muscular dystrophy use

- Secure fit under the thigh for improved lifting comfort
- Colour-coded by style and use
