

HEMECRAFT BOTTOM WIPER

\$46.00

SKU: PAT-AA2650

PRODUCT DESCRIPTION

HEMECRAFT BOTTOM WIPER PURPOSE AND BENEFITS

The Homecraft Bottom Wiper is a moulded plastic head with recessed serrations for gripping toilet paper. This is attached to an alloy curved handle that minimises the movement required for the user. Designed to be used from the front or the rear, this bottom wiper is 26.2 cm in length. The toilet paper is easily removed after use.

Instructions for Usage

1. Attach the toilet paper by wrapping it around the head of the device and insert the free ends into the headpiece section with the cut-out serrations.
2. Use from either the front or the rear. Both methods are equally effective.
3. To remove the paper, simply pull out from the cut-out in the head piece.

Cleaning and Care

Wipe over with a damp cloth and solution of mild detergent. The plastic heads can be washed in hot (not boiling) water with mild detergent.

Homecraft Bottom Wiper Features
