PRODUCT DESCRIPTION

Purpose & Benefits of the Hemocraft Caring Cutlery Ivory - Spoon

The Hemocraft Caring Cutlery Ivory Spoon is designed to assist individuals with limited hand or wrist mobility, providing an easy-to-hold, ergonomic grip that promotes independence while eating. The built-up, non-slip handle ensures that users can comfortably and securely hold the spoon, making it ideal for those with arthritis, weak grip strength, or other mobility challenges. Its lightweight yet durable construction ensures that the spoon is practical for daily use, improving the dining experience for users in home and care settings.

Features

- **Ergonomic Non-Slip Handle:** The spoon features a built-up, contoured handle that provides a secure, comfortable grip, making it easier for individuals with reduced hand function to use.
- **Lightweight Design:** Constructed from durable yet lightweight materials, the spoon is easy to handle and use, reducing strain on the wrist and hand.
- **Ideal for Limited Hand Mobility:** Designed for individuals with arthritis, weak grip, or other conditions affecting hand strength and control, offering enhanced independence during meals.
- **Dishwasher Safe:** The spoon is easy to clean and maintain, making it a convenient addition to any dining set for individuals with special needs.
- **Durable and Reliable:** Built to withstand regular use, this spoon offers long-lasting performance in both home and care environments.
