

Homecraft Lightweight Foam Handled Cutlery

\$78.00

SKU: N/A

PRODUCT DESCRIPTION

Purpose & Benefits

The **Homecraft Lightweight Foam Handled Cutlery** is designed to assist individuals with limited grip strength, arthritis, or reduced hand control. Each utensil features a soft, lightweight foam handle that provides a comfortable, non-slip grip, making mealtimes easier and more independent. Ideal for rehabilitation or daily living assistance, this cutlery promotes confidence and reduces hand strain during use.

Features

- Soft, closed-cell foam handles provide a comfortable, secure grip
- Lightweight design reduces fatigue and strain during eating
- Ideal for users with arthritis, limited hand mobility, or weak grip
- Stainless steel utensil heads for long-lasting durability
- Removable foam handles for cleaning and hygiene maintenance
- Available as individual pieces or in a full set (knife, fork, spoon, teaspoon)
