

HEMOCRAFT UNIVERSAL KETTLE TIPPER

\$153.00

SKU: PAT-091207281

PRODUCT DESCRIPTION

Purpose & Benefits of Homecraft Universal Kettle Tipper

The Homecraft Universal Kettle Tipper is designed to aid individuals with limited strength or mobility in their hands and arms, making it safer and easier to pour hot liquids without having to lift a heavy kettle. This device is particularly useful for people with conditions such as arthritis, or for those who might be at risk of burns or spills when handling hot appliances.

Features

- **Stability and Safety:** The tipper holds the kettle securely in place, allowing it to pivot and pour the liquid without the user needing to lift the weight of the kettle. This reduces the risk of spills and injuries.
- **Compatibility:** It is designed to fit most kettle types, including cordless and electric kettles, making it a versatile addition to any kitchen.
- **Ease of Use:** The tipper operates with a simple lever action, which can be managed with minimal effort, allowing for smooth and controlled pouring.
- **Durable Construction:** Constructed from sturdy materials that ensure long-lasting use and reliability.

Specifications

- Base plate diameter 20 cm
- Weight 190 g

The Homecraft Universal Kettle Tipper offers a practical solution for individuals looking to maintain independence in the kitchen while ensuring safety and convenience. It's an effective tool for

enhancing kitchen accessibility, particularly for those who face challenges in handling hot appliances due to physical limitations.
