SKU: IC173

PRODUCT DESCRIPTION

Purpose & Benefits

The ICare Knee Cushion is designed to enhance comfort and alignment while lying down by promoting correct leg and hip positioning. It gently cradles the knees, reducing pressure on the lower back and hips — making it especially beneficial for side sleepers, individuals with joint pain, or post-operative recovery.

By maintaining natural spinal alignment, the cushion helps prevent discomfort caused by misaligned knees or hips, and may also assist with circulation during rest.

Features

- Ergonomic design promotes leg, knee, and spine alignment
- Ideal for side sleepers or post-surgery recovery
- High-density, supportive Visco elastic memory foam
- Removable, washable cover for hygiene and convenience
- Soft, breathable cover fabric
- Compact and lightweight — suitable for travel

Specifications

- **Dimensions:** 260mm x 210mm x 160mm
- **Material:** Visco elastic memory foam
- **Cover:** Zip-off, machine washable fabric
