PRODUCT DESCRIPTION

PURPOSE & BENEFITS

Reform Neck Support Unique moulded neck support for comfort and alignment

The Reform Neck Support is a specially designed pillow that helps to support the neck and head in sitting positions. It has a unique moulded shape that conforms to the natural curve of the neck and provides lateral support to prevent the head from tilting. The Reform Neck Support is ideal for people who suffer from neck pain, stiffness, or tension, as well as those who want to improve their posture and alignment.
