PRODUCT DESCRIPTION

Purpose & Benefits of IMAK Arthritis Gloves

IMAK Arthritis Gloves are specifically designed to help relieve aches, pains, and stiffness associated with arthritis of the hands. Featuring a unique blend of compression and warmth, these gloves support improved circulation and oxygen delivery to muscles and joints, thereby reducing swelling, enhancing mobility, and promoting healing. The gentle compression helps keep the hand muscles warm and reduces the pain and swelling from arthritis, allowing for easier movement and dexterity. Ideal for both day and night use, IMAK Arthritis Gloves are recommended by healthcare professionals for those seeking a non-invasive solution to manage hand arthritis effectively, improving the quality of life and daily functionality.

Features

- **Mild Compression:** Provides the perfect amount of compression to help reduce swelling and increase blood circulation, offering relief from arthritis pain.
- **Open Finger Design:** Allows for freedom of movement and tactile sensation, making it easy to perform daily tasks such as typing, writing, and phone use.
- **Breathable Cotton Material:** Made from soft, breathable cotton that keeps hands comfortable and dry, suitable for all-day wear.
- **Ergonomic Design:** Conforms to the contours of the hand for a comfortable fit that does not impede natural hand movements.
- **Ease of Use:** Easy to put on and take off, these gloves are designed for those with limited mobility in their hands.
- **Machine Washable:** Ensures easy maintenance and hygiene, allowing the gloves to be cleaned regularly without losing their shape or compression.
