

## IMAK PIL-O-SPLINT

\$69.00 - \$71.00

SKU: RS-A10112-H

## PRODUCT DESCRIPTION

### Purpose & Benefits of the IMAK Pil-O-Splint

The IMAK Pil-O-Splint is a therapeutic splint designed to provide effective relief and stabilization for individuals experiencing carpal tunnel syndrome, arthritis, or other wrist and forearm discomforts. This splint is particularly beneficial for nighttime use, helping to keep the wrist in a neutral position and reducing pressure on the median nerve to alleviate pain and promote healing. Its adjustable design allows for a custom fit, making it suitable for a wide range of wrist sizes and ensuring that users can achieve optimal support and comfort while resting or sleeping.

### Features

- **Ergonomic Support:** Maintains the wrist in a neutral position, preventing flexion and tension that can exacerbate symptoms of carpal tunnel and other wrist disorders.
- **Adjustable Straps:** Features soft, adjustable straps that allow for a personalized fit and easy modification as swelling decreases or needs change.
- **Cushioned Comfort:** Padded with soft, breathable foam for maximum overnight comfort, ensuring users do not wake up with increased pain or stiffness.
- **Durable Construction:** Made from high-quality materials that are both durable and gentle on the skin, ensuring long-term usability and hypoallergenic comfort.
- **Versatile Use:** Ideal for both left and right wrists, providing flexible treatment options for individuals needing support for either or both wrists.
- **Easy to Care For:** The splint is designed for easy maintenance, being washable for hygiene and extended use.
