

## **INSTEP LASER CANE**

SKU: US-IN-LO

### PRODUCT DESCRIPTION

## **PURPOSE & BENEFITS**

lightweight height adjustable aluminium cane that projects a battery operated bright red line across the user's path. The laser beam is an obstacle free visual cue, which can enable people with Parkinson's disease or similar conditions, to break "freezing" episodes and increase stride length. The laser light appears when the user presses down on the cane and disappears when they lift it. The laser is powered by two AA batteries.

### **FEATURES**

- For Parkinson's freezing and other neurological conditions
- Projects a bright red line across your path as a safe, obstacle-free visual cue
- Enables Parkinson's patients and others to break "freezing" episodes and increase stride length
- Lightweight
- Height adjustable
- Powered by AA batteries

## **SPECIFICATIONS**

- Handle height 790 1016mm
- Height adjustments in 25mm increments
