\$139.00

SKU: IN-07237

PRODUCT DESCRIPTION

Purpose & Benefits of the Intellinetix Vibrating Calf/Shin Therapy Wrap

The Intellinetix Vibrating Calf/Shin Therapy Wrap is specifically designed to provide targeted relief for muscle pain, fatigue, and inflammation in the calf and shin areas. Ideal for athletes, runners, or anyone experiencing lower leg discomfort, this therapy wrap uses vibration therapy to enhance blood circulation, accelerate recovery, and reduce pain. The vibrations stimulate the muscles and tissues, helping to relieve the soreness and stiffness associated with intense physical activity or conditions like shin splints and calf strains. Its therapeutic effects also make it suitable for use during warm-ups or cooldowns to prevent injuries.

Features

- **Targeted Vibration Therapy:** Utilizes controlled vibrations to help increase blood flow, reduce pain, and promote faster healing in the calf and shin areas.
- **Adjustable Intensity Settings:** Features multiple vibration settings that can be adjusted to match the desired level of intensity for personalized pain relief.
- **Ergonomic Design:** Conforms to the contours of the calf and shin for maximum coverage and effectiveness, ensuring that the vibrations target the most affected areas.
- **Rechargeable Battery:** Comes with a rechargeable battery, offering the convenience of portability and the flexibility to use the wrap anywhere, anytime.
- **Secure Fit:** Includes adjustable straps that ensure the wrap stays in place during use, providing consistent therapeutic effects without slipping.
- **Comfortable and Durable Material:** Made from high-quality, soft materials that feel comfortable against the skin and are durable enough for regular use.

Specifications

- **Material:** Soft, flexible fabric designed for comfort and durability.
- **Size:** Available in a universal size with adjustable straps to fit a variety of calf sizes.
- **Battery Life:** Equipped with a long-lasting rechargeable battery that provides several hours of therapy on a single charge.
