

JOSLIN SWATHE

SKU: J50501ZL-H

PRODUCT DESCRIPTION

Purpose & Benefits of the Joslin Swathe

The Joslin Swathe is an accessory designed to be used in conjunction with an arm sling to provide additional support and stabilization for the arm and shoulder, particularly after injuries or surgeries. This product effectively immobilizes the arm against the body, helping to prevent unwanted movements that can delay healing or exacerbate pain. The swathe is particularly useful for those recovering from shoulder dislocations, fractures, or extensive shoulder surgery. By securing the arm in a fixed position, the Joslin Swathe aids in maintaining proper alignment and stability, facilitating a quicker and safer recovery process.

Features

- **Enhanced Stability**: Works in tandem with an arm sling to secure the arm against the body, reducing the risk of movement that could disrupt the healing process.
- **Adjustable Fit**: Features adjustable straps that allow for a custom fit, accommodating different body sizes and ensuring comfort.
- **Soft Material**: Made from soft, non-abrasive fabric that is gentle on the skin, preventing irritation and discomfort during extended wear.
- **Easy to Use**: Simple design that can be easily applied and adjusted with minimal effort, even with limited mobility.
- **Versatile Use**: Compatible with most standard arm slings, enhancing their stability and effectiveness.
- **Universal Design**: Suitable for use on either the left or right side, making it a practical choice for a wide range of patients.

Specifications

- **Material**: Durable, soft fabric that provides comfort and long-lasting use.
- **Size**: Child, Adult and Goliath
- **Care Instructions**: Machine washable for easy cleaning, ensuring it can be maintained in a hygienic condition.
