PRODUCT DESCRIPTION

PURPOSE & BENEFITS

The Karma Flexx Self Propelled Wheelchair is a versatile and lightweight mobility aid designed for people with mobility impairments. Its unique design allows for easy customisation and adjustment, making it comfortable and suitable for a wide range of users. The chair is easy to manoeuvre and provides excellent stability, making it ideal for indoor and outdoor use. The Flexx Self Propelled Wheelchair is equipped with a number of features to enhance the user's experience, including adjustable armrests and footrests, a comfortable seat cushion, and a foldable frame for easy storage and transportation.
