

**KCARE EASY TOUCH RECHARGABLE TOUCH LAMP****\$47.00****SKU: TLSDWHI****PRODUCT DESCRIPTION****Purpose & Benefits of KCare Easy Touch Rechargeable Touch Lamp**

The **KCare Easy Touch Rechargeable Touch Lamp** is a practical and user-friendly lighting solution designed to enhance visibility and safety in the home, particularly for individuals at risk of falls or those with limited mobility. With a simple touch control, this lamp offers three brightness settings to suit various needs — from soft ambient light to brighter task lighting.

Ideal for bedside tables, living areas or bathrooms, the lamp features a sleek, portable design and a built-in rechargeable battery, making it perfect for use during the night or in areas without easy access to power points. Its lightweight, cordless build allows users to move it easily from room to room, offering flexible lighting wherever it's needed.

Key Features:

- Touch control for easy operation — ideal for users with limited dexterity
- Three brightness levels for customisable lighting
- Rechargeable battery — no need for constant plug-in
- Cordless and portable for flexible placement around the home
- Modern, compact design suited to any room

- Enhances safety by reducing fall risks in low-light areas
- Ideal for use on bedside tables, in bathrooms, or during nighttime mobility
