

KCARE REHAB TILT IN SPACE SHOWER COMMODE

SKU: KA11507-REHAB-H

PRODUCT DESCRIPTION

PURPOSE & BENEFITS

The Kcare Rehab Tilt In Space Shower Commode with Swingaway Footrest offers superior functionality and adjustability to meet the needs of patients with varying sizes and conditions. Available in two seat widths - 445mm and 500mm - this commode is designed to provide an optimal fit for individual comfort.

Featuring lateral thoracic support adjustable height mounting plates standard on all models, it allows a 240mm range (20mm increments) for precise customisation. Knee guide mounting plates, also standard on all models, provide a 40mm horizontal mounting range (20mm increments), adding to its adaptability.

The height adjustability of the frame allows further personalisation, while height-adjustable flip-up arms enable unrestricted side transfers. Comfort is enhanced by adjustable tension backrest upholstery and the inclusion of standard left and right side openings on the seat frame.

Built to last with a durable stainless steel frame, the K Care Tilt in Space Rehab Shower Commode is both robust and long-lasting. Swing-away footrests with padded calf supports provide added comfort and ease of use, and 4 x 125mm locking swivel castors ensure mobility and stability.
