

KITCHEN PLASTIC SPREAD BOARD WITH SPIKES

SKU: PAT-AA528401

PRODUCT DESCRIPTION

PURPOSE AND BENEFITS

This Homecraft Plastic Spreading Board food helper is the ideal product to assist you in completing everyday activities such as buttering bread. It has a raised edge on one corner of the board which allows individuals to spread their bread using only one hand, with the raised edge holding the bread in place for you.

This feature makes this spreading board an ideal product for individuals who may be disabled or elderly.

It has been designed with a high quality plastic to ensure it is durable. Its plastic nature means that it is easy to clean, simply being able to be wiped down.

This spreading board also has four rubber stoppers on the bottom which assist with slip resistance, ensuring that the board doesn't move away from you when you are spreading your food.

The model of this spreading board can help to introduce independence back into individuals lives, holding bread or crackers firmly in place so they are able to spread it on their own.

FEATURES

- Durable
- Allows independence
- Perfect for people with disabilities and the elderly
- Holds bread in place for you
- Grips to bench during use
