PRODUCT DESCRIPTION

PURPOSE AND BENEFITS

Designed for use on the bed to aid circulation and vascular drainage. Provides even weight distribution and alleviates lower back strain. Ideal for those with varicose veins or swollen legs, and during pregnancy and convalesce. The contoured leg elevation pillow wedge is designed to fit the natural curves of your body and legs, cradling you in comfort. It helps to alleviate back and leg pain by raising your legs. Getting your legs elevated reduces pressure on blood flow to your legs, thus reducing the pressure on your heart. Leg Relaxer is a simple, but effective, leg wedge pillow. Your body will benefit from the a significant difference in the way your feet, knees, legs, hips, lower back and whole body feel after a sleeping right the entire night or from simply resting with your Legs Up! Comfortable and adjustable wedge

FEATURES

- Contoured for the calves and scalloped for the thighs.
