

LUXA HOMECARE TIMBER FRAME BED

SKU: N/A

PRODUCT DESCRIPTION

Purpose & Benefits of Luxa Homecare Timber Frame Bed

The Luxa Homecare Timber Frame Bed is designed to provide a comfortable and safe sleeping environment for individuals in need of home care. This bed offers several features that promote convenience, accessibility, and durability, making it an ideal choice for those requiring long-term or temporary bed rest.

Features

- **Adjustable Height:** The bed's height can be easily adjusted to accommodate different user needs, making it easier for caregivers to assist with tasks such as bed transfers and personal care.
- **Timber Frame:** Constructed from high-quality timber, the frame is sturdy and durable, providing a stable sleeping surface for users.
- **Head and Foot Adjustment:** Allows for customised positioning to enhance comfort while reading, watching TV, or sleeping.
- **Side Rails:** Provides added safety by preventing falls and offering support for users getting in and out of bed.
- **Easy Assembly:** Designed for simple and quick assembly without the need for special tools.
- **Mattress Options:** Compatible with a variety of mattresses to suit individual comfort preferences and medical needs.
