PRODUCT DESCRIPTION

Purpose & Benefits

The Morfit Adjustable Lumbar Support is designed to relieve lower back pain and promote healthy posture by providing personalised support exactly where you need it. Whether you're driving, working at a desk, or sitting for extended periods, Morfit moulds to the natural curve of your spine, offering reliable comfort throughout the day.

Using patented **Airset technology**, it conforms to your body and sets in place for long-lasting support. Choose the **Original** version for manual setup or opt for the **Electric Adjustable** model, which features a built-in USB-rechargeable pump for effortless fine-tuning on the go.

Ideal for people who experience lower back discomfort, spend extended hours seated, or want to improve sitting posture without bulky or intrusive supports.

Features

- Patented **Airset Technology** for customisable spinal support
- Promotes natural posture and reduces pressure on the lower back
- Lightweight and portable – use in the car, office, or at home
- Soft, removable, and washable cover
- Non-slip backing for secure positioning

- **Electric Adjustable** model includes USB-rechargeable pump
- Battery lasts up to 60 days on a single charge (Electric model)
- Clinically tested and endorsed by health professionals

Model Options

- **Original** – Manually adjust shape to your comfort preference
- **Electric Adjustable** – Adjust support at the press of a button for maximum convenience
